

24/7 MEDICAL CARE AND ADVICE

MDAccess allows businesses to directly connect with a team of Canadian-based nurses and doctors to resolve and document an onsite customer or employee medical issue. It has become a highly-valued service, designed to help people get medical assistance when and where they need it.

MDAccess has proven its ability to:

- Solve up to 80% of the reasons for these calls immediately over phone.
- Reduce or eliminate unnecessary trips to a walk-in clinic or emergency department.
- Provide reassurance and medical advice during uncertain times.
- Improve onsite care, reduce risk and cost.
- Provide safe and secure medical documentation.

TESTIMONIALS

"The doctor made sure I was comfortable before I got off the call. He thoroughly went over all options."

"The doctor took the time to explain what is happening, and why it happens. They are not in a rush. I feel reassured that I know what to expect, and what to look for - which I do not get at hospitals, doctors or clinics."

"I feel that I get a personalized service..."

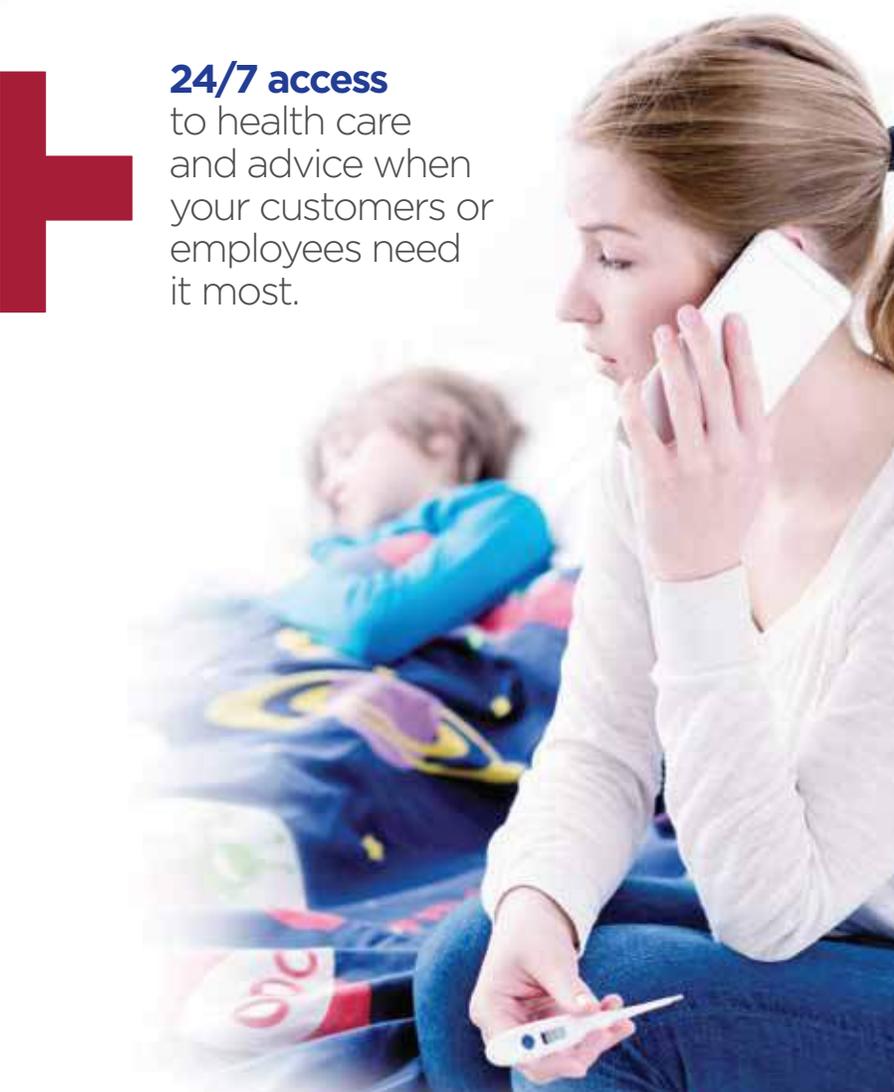

"I like that they don't just recommend over the counter medicine and prescriptions, but provide coaching (about alternate treatments) and what to look for."

"I got the information I needed, when it was occurring, not 2-3 weeks later."

From a Human Resources Manager:

"This service is one of my top recruitment tools for new employees!"

24/7 access
to health care
and advice when
your customers or
employees need
it most.

FEATURES

24/7 coverage by Canadian emergency and occupational health specialists.

Services available in French and English.

Photos can be sent securely to the doctor.

If required, prescriptions can be sent directly to the employee's preferred pharmacy.

Custom medical kits provided (based on site).

Confidential medical information is kept safe and secure.

HOW IT WORKS

Members get MDAccess Accounts and Call Sheets to have on-site.

When customer or staff member requires medical advice and care, Manager calls MDAccess.

MDAccess agent confirms details and medical concern.

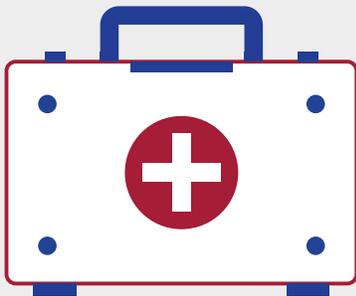

Nurse triages the patient and connects Doctor as required.

Voice recordings and medical notes for each call are kept safe and secure in proprietary software system.

MEDICAL KITS

- Custom medical kits provided
- Contents dependent on site and location (more comprehensive for non-urban locations)
- Delivered through pharmacy partners across Canada

ABOUT MDAccess

MDAccess gives people the opportunity to connect with a team of Canadian-trained nurses and physicians to discuss a medical concern. It was designed by PRAXES Medical Group, one of Canada's longest standing telemedicine providers, servicing clients such as the Canadian Navy, Coast Guard, and other marine, oil and gas companies for more than 20 years.
