"The fast paced consolidation we are all witnessing at both the Insurer level and brokerage level will not only continue, but will ramp up in the coming year. Consolidation has costs and the consolidators will look for immediate ways to cut those costs - and call them efficiencies. First go CSR's, and next the Sales Producers. All at a time when our industry has closed the door on new entrepreneurial start-ups, given it is impossible to get a start-up contract with any Insurer. If you have a desire to own your own show, or wish to build substantial wealth – Own your own brokerage by licensing under the Gateway Banner. It is easy, it works, and it pays now and at exit."
